Thanks Mike,

I think we should attach it to the comments on the risk assessment.

Subject: DEQ Draft HHRA Guidance, Breastfeeding Appendix

<<DEQ Draft HHRA Guidance Appendix D.pdf>> I finally finished drafting
the revisions to DEQ's human health risk assessment guidance, including
the appendix on the breastfeeding pathway. The announcement for public
review of the document will be going out today or tomorrow.

I cut out Appendix D and made a separate document for possible use on the Portland Harbor project. It may be appropriate to include this appendix in EPA's comments on the Portland Harbor draft risk assessment to direct or assist the LWG in how to evaluate the breastfeeding pathway. Another option would be to refer them to our full draft guidance document, which will be available on our website.

If you have any questions, let me know.

- Mike
